Dear Mr. Fletcher and Mr. Montpetit,

Thank you for your letter regarding the establishment of a park in the Montreal archipelago. I support your idea for this park as it is of great importance that we protect our remaining biodiversity from human encroachment. The Green Party is committed to reversing the disappointing recent trend of the federal government to devalue park protection, with firm and unwavering action to protect existing parks and expand our terrestrial and marine park systems.

I wish you every success in achieving your goals,

Elizabeth May, O.C., L.L.B., PhD (Hon)
Leader, Green Party of Canada

N.B. If you require this correspondence to be translated, please notify and we will arrange for that.
